Odor: Strong
Density 20°C: 1 gr/cm³
pH: 11
Flash point: 5°C
Freezing point: 3°C

Stored at temperatures from 3°C to 30°C.

DESCRIPTION

Cleaner of mold stains from marbles, cement walls, any stone surface, expansion joints, etc. Removes even the most hectic stains of green and black mildew. Acts immediately within 5 to 10 minutes.

APPLICATION

Always read the label of the product. Always test the liquid in a small area to make sure it does not affect the surface to be cleaned. If there are layers of moss remove them from the area. Turn the sprinkler nozzle to ON. Spray from a distance of 10 cm the surface you want to clean and allow the liquid to act for 10 minutes. If there are stains that have not been thoroughly cleaned, you can repeat the spraying after 10 minutes. Then, clean the surface either with a sponge of damped with water. When the mold stains are on colored walls, before extending to large surfaces make sure that the product doesn't damage their color.

INFORMATION ON STORAGE AND HANDLING

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Wash thoroughly after use. Wear protective gloves/protective clothing/eye protection/face protection. IF SWALLOWED: rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Dispose of contents and / or their container according to the separated collection system used in your municipality.

Contact with acids liberates toxic gas. Warning! Do not use together with other products. May release dangerous gases (chlorine).
